

CITY OF ANTIGO

PUBLIC WORKS COMMITTEE MEETING

MULTI-PURPOSE ROOM

Wednesday, April 26, 2017

CITY HALL

6:00 PM

Call to Order

Discussion and Action May Occur on Any of the Following Agenda Items:

1. Approval of Minutes from the March 22, 2017 meeting
2. Stop Sign on 9th Avenue at Hudson Street
3. Amendment #1 to MSA Professional Service Agreement for Final Design related to the Clermont Street (Bridge St to North City Limits) under WisDOT's Transportation Economic Assistance (TEA) Grant Program
4. Drainage Study to Improve Storm Sewer Outlet at Saratoga/Bridge Street and to Improve Mainline Storm Sewer Performance within Industrial Park
5. 2017 Slip Lining Project for Elm Street
6. 2017 Sidewalk Replacement Program
7. 2017 Deeglise Street Pulverize and Pave

Any Other Matters Authorized by Law to be Considered

Adjournment

Upon reasonable notice, efforts will be made to accommodate disabled individuals through appropriate aids and services. For additional information, contact Jaime Horswill, 700 Edison Street, Antigo, Wisconsin 54409. (715) 623-3633 extension 100. Members of and possibly a quorum of members of other governmental bodies may be in attendance to gather information. Any governmental body other than that specifically referred to above will take no action.

DATE MAILED: April 20, 2017

TOM BAUKNECHT

To: Mayor and City Council
From: Eric Roller, Public Safety Director/Police Chief
Date: April 26, 2017
Re: Stop Sign on 9th Avenue at Hudson Street

The intersection on 9th at Hudson Street is an uncontrolled intersection. I have had a request from a citizen living in the neighborhood regarding many near accidents at that location. I believe there is a safety issue with the uncontrolled intersection and placing a stop sign on 9th Avenue would not impede the flow of traffic.

Re: Amendment #1 to MSA Professional Service Agreement for Final Design related to the Clermont Street (Bridge St to North City Limits) under WisDOT's Transportation Economic Assistance (TEA) Grant Program

During 2013, the City submitted an application for a Transportation Economic Assistance (TEA) grant based on the creation of jobs as part of the Volm/Freshtec facility expansion on Clermont Street. The City was awarded \$100,000 from WisDOT in 2014 and was given 3-years to initiate the project. The project plans were recently approved and a bid letting was completed for the Clermont Street improvement project; construction is scheduled for this summer.

The original Professional Service Agreement with MSA (\$35,000) was approved in October of 2013 at a projected cost of \$30,000 for design and \$5,000 for administration. Due to the added project scope of nearly \$40,000 in storm sewer improvements (addressing improvements along Clermont near Amron Corporation) along with an increased number of submittals required through the DOT oversight process, the final design/administration costs increased by \$7,500 to a total of \$42,500.

It is my recommendation that Amendment #1 be approved for consideration by Council.

The impact to the 2017 budget will be \$10,545 as \$31,955 of the final total of \$42,500 in design fees was previously invoiced during the 2014 thru 2016 calendar years. Funds for this year's expenditures will be derived from the City's Engineering Capital Improvement Fund Street Construction Program and Storm Water Utility as appropriate.

Amendment No. 1

**To: City of Antigo
May 10, 2017**

**Date of Issuance:
Bill Brandt
709 Edison Street
Antigo, WI 54409**

MSA Project No.: 58041

This is an amendment to the Agreement dated October 9, 2013 and does acknowledge that MSA Professional Services, Inc. (MSA) is authorized to begin work on the following project amendment:

Project Name: Clermont Street Reconstruction

The project scope has changed due to: WisDOT priorities resulted in the contract time being extended more than 2 years. Changes in WisDOT requirements over that time and changes in review staff required several modifications to the plans and extended coordination over the additional contract time.

The schedule to perform the work is: Approximate Completion Date: 4/19/17

The Lump Sum Fee for the work: \$7,500

Authorization for the work described above shall amend the Agreement between MSA and OWNER. Any attachments or exhibits referenced in this Amendment are made part of the Agreement. Payment for these services will be on a time and materials basis.

Approval: MSA shall commence work on this project in accordance with your written authorization. This authorization is acknowledged by signature of the authorized representatives of the parties to this Amendment. A copy of this Amendment signed by the authorized representatives shall be returned for our files. If a signed copy of this Authorization is not received by MSA within seven days from the date of issuance, MSA may stop work on the project.

Re: Drainage Study to Improve Storm Sewer Outlet at Saratoga/Bridge Street and to Improve Mainline Storm Sewer Performance within Industrial Park

In order to identify the associated costs and feasibility associated with improvements to the storm sewer outfall (located west of the Saratoga Street/Amron Avenue intersection) a drainage study is being sought through MSA Professionals. The drainage problems within the industrial park located to the north and east of this outfall are readily identifiable and include the following problems:

- Continuously submerged storm sewer pipe at outfall location
- Storm water back-ups within the mainline sewer pipes
- Localized flooding at various loading docks (i.e. Plaspack Corporation)
- Surface flooding along the northern limits of Progress Blvd.
- Isolated flooding within the various green-space areas within the Industrial Park

The proposed Professional Services Agreement addresses a number of factors including the following:

- Feasibility and cost analysis for the primary considered solution by evaluating drainage relief southward to the Pierce Avenue storm sewer system and eventually to the Remington detention pond
- If necessary review alternative solutions for feasibility and cost as follows
 - Drainage path to the west of the existing outfall at Saratoga/Amron intersection to a location (low area) west of current dog park
 - Consideration of a storm sewer lift station at the west side of the Saratoga/Amron intersection allowing Sartoga Street to serve as an impoundment to storm water generated within the industrial park

Authorization of the Professional Service Agreement with MSA is being sought by waiver of the bidding process as allowed under the criteria established within the Professional Service category of the City's Purchasing Policy. MSA has submitted a cost not-to-exceed of \$10,000 and will work with staff to supply any necessary grade elevations or survey data. MSA has performed similar work (Deleglise Drainage Study) in the past on behalf of the City providing the necessary expertise and judgment leading towards viable solutions.

PROFESSIONAL SERVICES

More ideas. Better solutions.

Professional Services Agreement

This AGREEMENT (Agreement) is made today May 10, 2017 by and between CITY OF ANTIGO (OWNER) and MSA PROFESSIONAL SERVICES, INC. (MSA), which agree as follows:

Project Name: Bridge Street Stormwater Study

The scope of the work authorized is: See attached

The schedule to perform the work is: Approximate Start Date: 5/10/17
Approximate Completion Date: 8/15/17

The estimated fee for the work is: \$10,000, NTE

All services shall be performed in accordance with the General Terms and Conditions of MSA, which is attached and made part of this Agreement. Any attachments or exhibits referenced in this Agreement are made part of this Agreement. Payment for these services will be on a time and expense basis.

Approval: Authorization to proceed is acknowledged by signatures of the parties to this Agreement.

SCOPE OF WORK

BRIDGE STREET STORMWATER STUDY

April 19, 2017

MSA will prepare a Stormwater Study for the drainage area associated with the Stormsewer on Bridge Street between Saratoga Street and Clermont Street. MSA will complete the following:

- Utilize topography received from the City including aerial photos with 2-foot contours, LIDAR data, if available, and miscellaneous shots at control points along the drainage area.
 - If additional topo is needed. The City will collect it based on information provided by MSA.
 - MSA will use record drawings for City structures with controlling elevations on Deeglise Street, Pierce Avenue, First Avenue and at Remington Lake.
 - The City will collect any additional existing elevations as needed based on information provided by MSA.
- Identify the drainage basin for the storm sewer.
- Evaluate up to three alternatives to relieve flooding in the study area.
- The City has requested that a drainage route from the intersection of Bridge Street and Saratoga Street going south thru the proposed Industrial Park to intersection with Deeglise Street and Pierce Avenue and then the existing storm sewer from there to Remington Lake be evaluated first.
 - MSA will determine flows from design storm required by DNR to determine size of drainage ways required.
 - Will evaluate drainage gradient available and determine whether it will meet minimum design requirements for storm sewer slopes.
 - MSA will evaluate locations for detention/sedimentation basins to allow flows to be decreased to fit the existing storm sewer.
 - If feasible MSA will develop a preliminary plan and cost estimate to complete this alternative.
 - If this route is not feasible, MSA in consultation with the City will look at other alternatives.
- Up to two other options will be evaluated should Option 1 not be practical.
 - Evaluate ditching that would extend west of Bridge Street whether by a route north or south of the existing closed landfill.
 - Determine if there is a combination of routes of ditching and culverts to allow free drainage of water to the wetland complex and an outfall to alleviate the flooding of the existing Bridge Street stormsewer and the study area.

- o If gravity drainage solutions are not practical evaluate providing a stormwater lift station near the intersection of Bridge Street and Saratoga Avenue.
 - Evaluate lift station sizing
 - Evaluate discharge impact on downstream drainage and water elevations.
 - Prepare preliminary construction cost estimates.

Fee: \$10,000 Hourly, not to exceed

Stakes/Lath/Rods	At cost
Total Station	Included in labor rates
Travel Expenses, Lodging, & Meals	At cost
Traffic Counting Equipment & Data Processing	At cost

* Labor rates represent an average or range for a particular job classification. These rates are in effect until March 1, 2018. After March 1, 2018, these rates may increase by not more than 5% per year.

**MSA PROFESSIONAL SERVICES, INC. (MSA) –
GENERAL TERMS AND CONDITIONS OF SERVICES (PUBLIC - Wisconsin)**

1. **Scope and Fee.** The quoted fees and scope of services constitute the best estimate of the fees and tasks required to perform the services as defined. This agreement upon execution by both parties hereto, can be amended only by written instrument signed by both parties. For those projects involving conceptual or process development service, activities often cannot be fully defined during initial planning. As the project progresses, facts uncovered may reveal a change in direction which may alter the scope. MSA will promptly inform the OWNER in writing of such situations so that changes in this agreement can be made as required. The OWNER agrees to clarify and define project requirements and to provide such legal, accounting and insurance counseling services as may be required for the project.

2. **Billing.** MSA will bill the OWNER monthly with net payment due upon receipt. Past due balances shall be subject to an interest charge at a rate of 12% per year from said thirtieth day. In addition, MSA may, after giving seven days written notice, suspend service under any agreement until the OWNER has paid in full all amounts due for services rendered and expenses incurred, including the interest charge on past due invoices.

3. **Costs and Schedules.** Costs and schedule commitments shall be subject to change for delays caused by the OWNER's failure to provide specified facilities or information or for delays caused by unpredictable occurrences including, without limitation, fires, floods, riots, strikes, unavailability of labor or materials, delays or defaults, by suppliers of materials or services, process shutdowns, acts of God or the public enemy, or acts of regulations of any governmental agency. Temporary delays of services caused by any of the above which result in additional costs beyond those outlined may require renegotiation of this agreement.

4. **Access to Site.** Owner shall furnish right-of-entry on the project site for MSA and, if the site is not owned by Owner, warrants that permission has been granted to make planned explorations pursuant to the scope of services. MSA will take reasonable precautions to minimize damage to the site from use of equipment, but has not included costs for restoration of damage that may result and shall not be responsible for such costs.

5. **Location of Utilities.** Consultant shall use reasonable means to identify the location of buried utilities in the areas of subsurface exploration and shall take reasonable precautions to avoid any damage to the utilities noted. However, Owner agrees to indemnify and defend Consultant in the event of damage or injury arising from damage to or interference with subsurface structures or utilities which result from inaccuracies in information of instructions which have been furnished to Consultant by others.

6. **Professional Representative.** MSA intends to serve as the OWNER's professional representative for those services as defined in this agreement, and to provide advice and consultation to the OWNER as a professional. Any opinions of probable project costs, reviews and observations, and other decisions made by MSA for the OWNER are rendered on the basis of experience and qualifications and represents the professional judgment of MSA. However, MSA cannot and does not guarantee that proposals, bid or actual project or construction costs will not vary from the opinion of probable cost prepared by it.

7. **Construction.** This agreement shall not be construed as giving MSA, the responsibility or authority to direct or supervise construction means, methods, techniques, sequence, or procedures of construction selected by the contractors or subcontractors or the safety precautions and programs incident to the work of the contractors or subcontractors.

8. **Standard of Care.** In conducting the services, MSA will apply present professional, engineering and/or scientific judgment, and use a level of effort consistent with current professional standards in the same or similar locality under similar circumstances in performing the Services. The OWNER acknowledges that "current professional standards" shall mean the standard for professional services, measured as of the time those services are rendered, and not according to later standards, if such later standards purport to impose a higher degree of care upon MSA.

MSA does not make any warranty or guarantee, expressed or implied, nor have any agreement or contract for services subject to the provisions of any uniform commercial code. Similarly, MSA will not accept those terms and conditions offered by the OWNER in its purchase order, requisition, or notice of authorization to proceed, except as set forth herein or expressly agreed to in writing. Written acknowledgement of receipt, or the actual performance of services subsequent to receipt of such purchase order, requisition, or notice of authorization to proceed is specifically deemed not to constitute acceptance of any terms or conditions contrary to those set forth herein.

9. **Construction Site Visits.** MSA shall make visits to the site at intervals appropriate to the various stages of construction as MSA deems necessary in order to observe, as an experienced and qualified design professional, the progress and quality of the various aspects of Contractor's work.

The purpose of MSA's visits to, and representation at the site, will be to enable MSA to better carry out the duties and responsibilities assigned to and undertaken by MSA during the Construction Phase, and in addition, by the exercise of MSA's efforts as an experienced and qualified design professional, to provide for OWNER a greater degree of confidence that the completed work of Contractor will conform in general to the Contract Documents and that the integrity of the design concept of the completed Project as a functioning whole as indicated in the Contract Documents has been implemented and preserved by Contractor. On the other hand, MSA shall not, during such visits or as a result of such observations of Contractor's work in progress, supervise, direct or have control over Contractor's work nor shall MSA have authority over or responsibility for the means, methods, techniques, sequences or procedures of construction selected by Contractor, for safety precautions and programs incident to the work of Contractor or for any failure of Contractor to comply with laws, rules, regulations, ordinances, codes or orders applicable to Contractor's furnishing and performing the work. Accordingly, MSA neither guarantees the performance of any Contractor nor assumes responsibility for any Contractor's failure to furnish and perform its work in accordance with the Contract Documents.

10. **Termination.** This Agreement shall commence upon execution and shall remain in effect until terminated by either party, at such party's discretion, on not less than thirty (30) days' advance written notice. The effective date of the termination is the thirtieth day after the non-terminating party's receipt of the notice of termination. If MSA terminates the Agreement, the OWNER may, at its option, extend the terms of this Agreement to the extent necessary for MSA to complete any services that were ordered prior to the effective date of termination. If OWNER terminates this Agreement, OWNER shall pay MSA for all services performed prior to MSA's receipt of the notice of termination and for all work performed and/or expenses incurred by MSA in terminating Services begun after MSA's receipt of the termination notice. Termination hereunder shall operate to discharge only those obligations which are executory by either party on and after the effective date of termination. These General Terms and Conditions shall survive the completion of the services performed hereunder or the Termination of this Agreement for any cause.

This agreement cannot be changed or terminated orally. No waiver of compliance with any provision or condition hereof should be effective unless agreed in writing and duly executed by the parties hereto.

11. **Betterment.** If, due to MSA's error, any required or necessary item or component of the project is omitted from the construction documents, MSA's liability shall be limited to the reasonable costs of correction of the construction, less what OWNER'S cost of including the omitted item or component in the original construction would have been had the item or component not been omitted. It is intended by this provision that MSA will not be responsible for any cost or expense that provides betterment, upgrade, or enhancement of the project.

12. **Hazardous Substances.** OWNER acknowledges and agrees that MSA has had no role in generating, treating, storing, or disposing of hazardous substances or materials which may be present at the project site, and MSA has not benefited from the processes that produced such hazardous substances or materials. Any hazardous substances or materials encountered by or associated with Services provided by MSA on the project shall at no time be or become the property of MSA. MSA shall not be deemed to possess or control any hazardous substance or material at any time; arrangements for the treatment, storage, transport, or disposal of any hazardous substances or materials, which shall be made by MSA, are made solely and exclusively on OWNER's behalf for OWNER's benefit and at OWNER's direction. Nothing contained within this Agreement shall be construed or interpreted as requiring MSA to assume the status of a generator, storer, treater, or disposal facility as defined in any federal, state, or local statute, regulation, or rule governing treatment, storage, transport, and/or disposal of hazardous substances or materials.

All samples of hazardous substances, materials or contaminants are the property and responsibility of OWNER and shall be returned to OWNER at the end of a project for proper disposal. Alternate arrangements to ship such samples directly to a licensed disposal facility may be made at OWNER's request and expense and subject to this subparagraph.

13. **Insurance.** MSA will maintain insurance coverage for: Worker's Compensation, General Liability, and Professional Liability. MSA will provide information as to specific limits upon written request. If the OWNER requires coverages or limits in addition to those in effect as of the date of the agreement, premiums for additional insurance shall be paid by the OWNER. The liability of MSA to the OWNER for any indemnity commitments, or for any damages arising in any way out of performance of this contract is limited to such insurance coverages and amount which MSA has in effect.

14. **Reuse of Documents.** Reuse of any documents and/or services pertaining to this project by the OWNER or extensions of this project or on any other project shall be at the OWNER's sole risk. The OWNER agrees to defend, indemnify, and hold harmless MSA for all claims, damages, and expenses including attorneys' fees and costs arising out of such reuse of the documents and/or services by the OWNER or by others acting through the OWNER.

15. **Indemnification.** To the fullest extent permitted by law, MSA shall indemnify and hold harmless, OWNER, and OWNER's officers, directors, members, partners, agents, consultants, and employees (hereinafter "OWNER") from reasonable claims, costs, losses, and damages, including reasonable attorney's fees, arising out of or relating to the PROJECT, provided that any such claim, cost, loss, or damage is attributable to bodily injury, sickness, disease, or death, or to injury to or destruction of tangible property (other than the Work itself) including the loss of use resulting therefrom but only to the extent caused by any negligent act or omission of MSA or MSA's officers, directors, members, partners, agents, employees, or Consultants (hereinafter "MSA"). In no event shall this indemnity agreement apply to claims between the OWNER and MSA. This indemnity agreement applies solely to claims of third parties. This agreement does not give rise to any duty on the part of MSA to defend the OWNER on any claim arising under this agreement.

To the fullest extent permitted by law, MSA's total liability to OWNER and anyone claiming by, through, or under OWNER for any cost, loss or damages caused in part or by the negligence of MSA and in part by the negligence of OWNER or any other negligent entity or individual, shall not exceed the percentage share that MSA's negligence bears to the total negligence of OWNER, MSA, and all other negligent entities and individuals.

16. **Dispute Resolution.** OWNER and MSA desire to resolve any disputes or areas of disagreement involving the subject matter of this Agreement by a mechanism that facilitates resolution of disputes by negotiation rather than by litigation. OWNER and MSA also acknowledge that issues and problems may arise after execution of this Agreement which were not anticipated or are not resolved by specific provisions in this Agreement. Accordingly, both OWNER and MSA will endeavor to settle all controversies, claims, counterclaims, disputes, and other matters in accordance with the Construction Industry Mediation Rules of the American Arbitration Association currently in effect, unless OWNER and MSA mutually agree otherwise. Demand for mediation shall be filed in writing with the other party to this Agreement. A demand for mediation shall be made within a reasonable time after the claim, dispute or other matter in question has arisen. In no event shall the demand for mediation be made after the date when institution of legal or equitable proceedings based on such claim, dispute or other matter in question would be barred by the applicable statute of limitations. Neither demand for mediation nor any term of this Dispute Resolution clause shall prevent the filing of a legal action where failing to do so may bar the action because of the applicable statute of limitations. If despite the good faith efforts of OWNER and MSA any controversy, claim, counterclaim, dispute, or other matter is not resolved through negotiation or mediation, OWNER and MSA agree and consent that such matter may be resolved through legal action in any state or federal court having jurisdiction.

17. **Exclusion of Special, Indirect, Consequential and Liquidated Damages.** Consultant shall not be liable, in contract or tort or otherwise, for any special, indirect, consequential, or liquidated damages including specifically, but without limitation, loss of profit or revenue, loss of capital, delay damages, loss of goodwill, claim of third parties, or similar damages arising out of or connected in any way to the project or this contract.

18. **State Law.** This agreement shall be construed and interpreted in accordance with the laws of the State of Wisconsin.

19. **Jurisdiction.** OWNER hereby irrevocably submits to the jurisdiction of the state courts of the State of Wisconsin for the purpose of any suit, action or other proceeding arising out of or based upon this Agreement. OWNER and MSA further consent that the venue for any legal proceedings related to this Agreement shall be Langlade County, Wisconsin.

20. **Understanding.** This agreement contains the entire understanding between the parties on the subject matter hereof and no representations. Inducements, promises or agreements not embodied herein (unless agreed in writing duly executed) shall be of any force or effect, and this agreement supersedes any other prior understanding entered into between the parties on the subject matter hereto.
