

CITY OF ANTIGO
ZONING BOARD OF APPEALS
MINUTES OF MEETING HELD
SEPTEMBER 13, 2016

Zoning Board of Appeals of the City of Antigo met in Regular Meeting on the above date at 5:32 PM in the Multi-Purpose Room, City Hall, Chairperson Todd Langseth presiding.

Attendee Name	Title	Status	Arrived
Toni Schneider	Member	Absent	
Todd Langseth	Chairperson	Present	
John Warner	Member	Present	
Helen Wanca	Member	Present	
Bruce Kommers	Member	Absent	

Others in attendance: Roger Musolff, Inspector/Zoning Administrator; Deb and Brian Zaverousky; and Julie Zack, Administration Clerical Assistant.

Public Hearings

1. A Public Hearing will be held regarding a variance from the provisions of Section 14-746 (4), Ordinance No. 1095B, the Municipal Code of the City of Antigo at 622 Farwell Avenue

There was no one present wishing to address the variance change.

After complying with statutory procedures, Chairperson Langseth closed the public hearing at 5:33 pm.

RESULT:	CLOSED [UNANIMOUS]
AYES:	Todd Langseth, John Warner, Helen Wanca
ABSENT:	Toni Schneider, Bruce Kommers

2. A Public Hearing regarding a variance from the provisions of Section 14-746 (4), Ordinance No. 1095B, the Municipal Code of the City of Antigo at 1019 First Avenue.

There was no one present wishing to address the variance change.

After complying with statutory procedures, Chairperson Langseth closed the public hearing at 5:34 pm.

RESULT:	CLOSED [UNANIMOUS]
AYES:	Todd Langseth, John Warner, Helen Wanca
ABSENT:	Toni Schneider, Bruce Kommers

Discussion and Action May Occur on Any of the Following Agenda Items:

1. Request to expand garage at 622 Farwell Avenue (Parcel No. 201-2215).

Roger Musolff noted a concern at this property as he has a shed on the parcel already and never took out a permit to build it. Ordinance states you cannot have a parcel with just a shed on it and he has spoken to the owner, Mr. Karpf, about this.

Mr. Musolff advised that Mr. Karpf wants to build on to the back of the garage, which currently has a lean to on it. Mr. Musolff does not believe the lean to was permitted either.

Mr. Musolff advised that when speaking with Mr. Karpf he advised that the shed needs be removed as there cannot be two unattached buildings on a parcel.

Upon inquiry by Todd Langseth, Mr. Musolff indicated that if approved, the garage would become a 29' x 68' building. Mr. Musolff stated that the shed has to come down and even if he combines the parcels, he will still be in violation unless the shed comes down.

Mr. Musolff indicated that you are allowed a 1000 square foot building and the request is to almost double the ordinance. He does have enough land to accommodate the garage square footage.

Motion to approve the variance request to Section 14-746 (4), Ordinance No. 1095B to exceed 1000 square foot accessory structure as requested subject to removal of the existing shed.

RESULT:	CARRIED [UNANIMOUS]
MOVER:	Helen Wanca, Member
SECONDER:	John Warner, Member
AYES:	Todd Langseth, John Warner, Helen Wanca
ABSENT:	Toni Schneider, Bruce Kommers

2. Request for an addition to garage for more storage space for vehicles at 1019 First Avenue (Parcel No. 201-0015.002)

Upon inquiry by Mr. Musolff, Brian Zaverousky indicated that the current garage is 24 x 48.

Mr. Zaverousky indicated that the current garage has a funny layout. One third of the garage has a bearing wall that runs east and west. It would take major fabrication to attempt to make it a three stall garage due to its size and a large storage area upstairs. With business vehicles and other vehicles, he is requesting to add to the east 28 feet and 36 feet deep for additional vehicles and storage.

Upon inquiry by John Warner, Mr. Zaverousky indicated that the side wall would be 12 feet high.

Upon inquiry by Mr. Musolff, Mr. Zaverousky noted that currently he has approximately a 2300 square foot accessory building. By ordinance, you are allowed 1000 square feet. If the variance is approved, Mr. Zaverousky would have close to 3500 square feet.

Mr. Musolff further explained the home occupation ordinance after inquiry about a forklift and trucks on the property. The ordinance states no residence can have the appearance of a business in a residential area along with other laws.

Upon inquiry by Mr. Langseth, Mr. Zaverousky indicated that the two story garage would stay and the proposed garage would only be single story.

Mr. Musolff noted concerns regarding the continuing approval of allowing garages larger than ordinance states as he feels a precedence is being set and suggested maybe the ordinance should be revisited.

Mr. Langseth disagreed stating that as long as the ordinance is in place, the committee has the ability to look at each case. He does not feel it is setting a precedence as he thinks it depends on where the building is and what it effects. He does not see a problem with this particular site as there is nothing to the east of the property.

Mr. Musolff indicated that the current garage does not look bad from the east. It is from the north looking south. The garage looks bigger than the house.

Motion to approve the variance request to add a 28' x 36' addition to the existing garage located at 1019 First Avenue as requested.

RESULT:	CARRIED [UNANIMOUS]
MOVER:	John Warner, Member
SECONDER:	Helen Wanca, Member
AYES:	Todd Langseth, John Warner, Helen Wanca
ABSENT:	Toni Schneider, Bruce Kommers

Any Other Matters Authorized by Law to be Considered

• **Sec. 14-746. - Accessory uses or structures.**

(a)

Building permit required. No owner shall, within the city, build, construct, use or place any type of an accessory building, including prefabricated accessory buildings, until a permit shall have first been obtained from the city inspector. Application for an accessory building permit shall be made in writing to the city inspector. With such application there shall be submitted a fee pursuant to the city building code set forth in article VI of this chapter and a complete set of plans and specifications, including a plot plan or drawing accurately showing the location of the proposed accessory building with respect to adjoining alleys, lot lines and buildings. If such application meets all requirements of this section, the application shall be approved.

(b)

Presence of principal use. An accessory use or structure in any zoning district shall not be established prior to the principal use or structure being present or under construction. Any accessory use or structure shall conform to the applicable regulations of the district to which it is located, except as specifically otherwise provided.

(c)

Placement restrictions in residential district. An accessory use or structure in a residential district may be established subject to the following:

(1)

Accessory building number limits. In any residential district, in addition to the principal building, a detached garage or attached garage and one additional accessory building and one fixed children's play structure may be placed on a lot, except as provided in subsection (c)(2) of this section.

(2)

Limitation on number of detached garages and accessory buildings.

a.

Residentially zoned parcels with a single garage attached to the dwelling are permitted to have an additional one- or two-car detached garage on the parcel. If a detached garage is erected, no other detached accessory buildings may be constructed or maintained on the parcel.

b.

Residentially zoned parcels with more than a one-stall garage attached to the dwelling are permitted to have an additional one-stall garage on the parcel. If a detached garage is erected, no other detached accessory building may be constructed or maintained on the parcel.

c.

Garages attached to dwellings shall be three stalls or less. Dwellings with an attached three-stall garage are not permitted to have an additional detached garage on the parcel.

(3)

Attached accessory buildings. All accessory buildings which are attached to the principal building shall comply with the yard requirements of the principal building.

(4)

Detached accessory buildings; lot area coverage.

a.

No detached accessory building shall occupy any portion of the required front yard.

b.

No accessory building or structure constructed on a lot with an existing principal structure (single-family detached dwellings, rectories, parsonages and parish houses) shall be of greater height than the principal structure. If, under this article, the accessory building or structure is

built before the principal structure, the same height restriction shall apply. This height rule shall not apply to lots where the principal structures are used for agricultural purposes.

c.

No detached accessory building shall occupy more than 33 percent of the area of a required yard or exceed 1,000 square feet in size, whichever is more restrictive.

d.

No detached accessory building shall be located within five feet of any other accessory building. Setbacks shall be as prescribed by district regulations.

e.

The dimensions of any swimming pool, fixed children's play structure, detached garage, tennis court and other detached accessory buildings/structures shall be included in the determination of available lot area coverage for accessory structures.

f.

An accessory building shall not be nearer than ten feet to the principal structure unless the applicable building code regulations in regard to one-hour, fire-resistive construction are complied with. In no event can the accessory uses or structures be forward of the front line of the principal structure. Accessory structures shall not be closer than two feet to any lot.

(5)

Pole structures. In residential zoning districts R-1 through R-4, these structures will be allowed provided they meet all department of commerce snow loading and wind loading specifications as provided through engineering data from the supplier of the building. Proposed structures without engineering data will not be allowed unless structural analysis is provided. Agricultural pole structures in the R-1 district are not subject to these requirements since they are exempt from the building code.

(6)

Location on reversed corner lots.

a.

On a reversed corner lot in a residence district and within 15 feet of any adjacent property to the rear in a residence district, no accessory building or portion thereof located in a required rear yard shall be closer to the side lot line abutting the street than a distance equal to two-thirds the least depth which would be required under this article for the front yard on such adjacent property to the rear. Further, in this instance, no such accessory building shall be located within five feet of any part of a rear lot line which coincides with the side lot line or portion thereof of property in any residence district.

b.

No accessory building shall be erected in or encroach upon the required side yard of a corner lot which is adjacent to the street, nor upon the required side yard of a reversed corner lot which is adjacent to the street.

(d)

Use restrictions in residential district. Accessory uses or structures in residential districts shall not involve the conduct of any business, trade or industry except for home occupations and shall not be occupied as a dwelling unit. Accessory buildings shall not be used for residential purposes. Under no circumstances may a tent be used as a dwelling or an accessory structure.

(e)

Placement restrictions in nonresidential districts. An accessory use or structure in a business or manufacturing district may be established in the rear yard or side yard and shall not be nearer than five feet to any side or rear lot line.

(f)

Reversed corner lots. When an accessory structure is located on the rear of a reversed corner lot, it shall not be located beyond the front yard required on the adjacent interior lot to the rear, nor nearer than three feet to the side line of the adjacent structure.

(g)

Landscaping uses. Accessory structures and vegetation used for landscaping and decorating may be placed in any required yard area. Permitted structures and vegetation include flagpoles, ornamental light standards, lawn furniture, sundials, bird baths, trees, shrubs and flowers and gardens.

(h)

Temporary uses. Temporary accessory uses, such as real estate sale field offices or shelters for materials and equipment being used in the construction of the permanent structure, may be permitted by the zoning administrator.

(i)

Garages in embankments in front yards. Where the mean natural grade of a front yard is more than eight feet above the curb level, a private garage may be erected within the front yard, provided as follows:

(1)

Such private garage shall be located not less than five feet from the front lot line;

(2)

The floor level of such private garage shall be not more than one foot above the curb level; and

(3)

At least one-half the height of such private garage shall be below the mean grade of the front yard.

(j)

Outdoor lighting. Outdoor lighting installations shall not be permitted closer than two feet to an abutting property line and, where not specifically otherwise regulated, shall not exceed 15 feet in height. The lighting shall be adequately shielded or hooded so that no excessive glare or illumination is cast upon the adjoining properties, and the lighting shall not register more than one-half footcandle at the property line.

(k)

Lawn accessories. Paved terraces and purely decorative garden accessories, such as pools, fountains, statuary, sundials, flagpoles, etc., shall be permitted in setback areas, but not closer than two feet to an abutting property line other than a street line.

(l)

Retaining walls. Retaining walls may be permitted anywhere on the lot; provided, however, that no individual wall shall exceed six feet in height, and a terrace of at least three feet in width shall be provided between any series of such walls.

(m)

Children's play structures. For purposes of this section, children's play structures, including play houses, tree houses or fixed elevated play structures and climbing gyms, shall be considered accessory structures and shall comply with the requirements of this section, whether such play structures are placed on a foundation or not. Swing sets, slides and sandboxes are not considered children's play structures for purposes of this section. A building permit is not required for the construction of a play structure. Play structures shall not be used for storage or be constructed out of materials that would constitute a nuisance.

(n)

Terrace area restrictions. In addition to the definitions and restrictions contained in chapter 34, articles I and II, no person shall place any accessory structure or use, including landscaping ornaments, stones and basketball backboards/hoops, in the terrace area.

(a)

Building permit required. No owner shall, within the city, build, construct, use or place any type of an accessory building, including prefabricated accessory buildings, until a permit shall have first been obtained from the city inspector. Application for an accessory building permit shall be made in writing to the city inspector. With such application there shall be submitted a fee pursuant to the city building code set forth in article VI of this chapter and a complete set of plans and specifications, including a plot plan or drawing accurately showing the location of the proposed accessory building with respect to adjoining alleys, lot lines and buildings. If such application meets all requirements of this section, the application shall be approved.

(b)

Presence of principal use. An accessory use or structure in any zoning district shall not be established prior to the principal use or structure being present or under construction. Any accessory use or structure shall conform to the applicable regulations of the district to which it is located, except as specifically otherwise provided.

(c)

Placement restrictions in residential district. An accessory use or structure in a residential district may be established subject to the following:

(1)

Accessory building number limits. In any residential district, in addition to the principal building, a detached garage or attached garage and one additional accessory building and one fixed children's play structure may be placed on a lot, except as provided in subsection (c)(2) of this section.

(2)

Limitation on number of detached garages and accessory buildings.

a.

Residentially zoned parcels with a single garage attached to the dwelling are permitted to have an additional one- or two-car detached garage on the parcel. If a detached garage is erected, no other detached accessory buildings may be constructed or maintained on the parcel.

b.

Residentially zoned parcels with more than a one-stall garage attached to the dwelling are permitted to have an additional one-stall garage on the parcel. If a detached garage is erected, no other detached accessory building may be constructed or maintained on the parcel.

c.

Garages attached to dwellings shall be three stalls or less. Dwellings with an attached three-stall garage are not permitted to have an additional detached garage on the parcel.

(3)

Attached accessory buildings. All accessory buildings which are attached to the principal building shall comply with the yard requirements of the principal building.

(4)

Detached accessory buildings; lot area coverage.

a.

No detached accessory building shall occupy any portion of the required front yard.

b.

No accessory building or structure constructed on a lot with an existing principal structure (single-family detached dwellings, rectories, parsonages and parish houses) shall be of greater height than the principal structure. If, under this article, the accessory building or structure is

built before the principal structure, the same height restriction shall apply. This height rule shall not apply to lots where the principal structures are used for agricultural purposes.

c.

No detached accessory building shall occupy more than 33 percent of the area of a required yard or exceed 1,000 square feet in size, whichever is more restrictive.

d.

No detached accessory building shall be located within five feet of any other accessory building. Setbacks shall be as prescribed by district regulations.

e.

The dimensions of any swimming pool, fixed children's play structure, detached garage, tennis court and other detached accessory buildings/structures shall be included in the determination of available lot area coverage for accessory structures.

f.

An accessory building shall not be nearer than ten feet to the principal structure unless the applicable building code regulations in regard to one-hour, fire-resistive construction are complied with. In no event can the accessory uses or structures be forward of the front line of the principal structure. Accessory structures shall not be closer than two feet to any lot.

(5)

Pole structures. In residential zoning districts R-1 through R-4, these structures will be allowed provided they meet all department of commerce snow loading and wind loading specifications as provided through engineering data from the supplier of the building. Proposed structures without engineering data will not be allowed unless structural analysis is provided. Agricultural pole structures in the R-1 district are not subject to these requirements since they are exempt from the building code.

(6)

Location on reversed corner lots.

a.

On a reversed corner lot in a residence district and within 15 feet of any adjacent property to the rear in a residence district, no accessory building or portion thereof located in a required rear yard shall be closer to the side lot line abutting the street than a distance equal to two-thirds the least depth which would be required under this article for the front yard on such adjacent property to the rear. Further, in this instance, no such accessory building shall be located within five feet of any part of a rear lot line which coincides with the side lot line or portion thereof of property in any residence district.

b.

No accessory building shall be erected in or encroach upon the required side yard of a corner lot which is adjacent to the street, nor upon the required side yard of a reversed corner lot which is adjacent to the street.

(d)

Use restrictions in residential district. Accessory uses or structures in residential districts shall not involve the conduct of any business, trade or industry except for home occupations and shall not be occupied as a dwelling unit. Accessory buildings shall not be used for residential purposes. Under no circumstances may a tent be used as a dwelling or an accessory structure.

(e)

Placement restrictions in nonresidential districts. An accessory use or structure in a business or manufacturing district may be established in the rear yard or side yard and shall not be nearer than five feet to any side or rear lot line.

(f)

Reversed corner lots. When an accessory structure is located on the rear of a reversed corner lot, it shall not be located beyond the front yard required on the adjacent interior lot to the rear, nor nearer than three feet to the side line of the adjacent structure.

(g)

Landscaping uses. Accessory structures and vegetation used for landscaping and decorating may be placed in any required yard area. Permitted structures and vegetation include flagpoles, ornamental light standards, lawn furniture, sundials, bird baths, trees, shrubs and flowers and gardens.

(h)

Temporary uses. Temporary accessory uses, such as real estate sale field offices or shelters for materials and equipment being used in the construction of the permanent structure, may be permitted by the zoning administrator.

(i)

Garages in embankments in front yards. Where the mean natural grade of a front yard is more than eight feet above the curb level, a private garage may be erected within the front yard, provided as follows:

(1)

Such private garage shall be located not less than five feet from the front lot line;

(2)

The floor level of such private garage shall be not more than one foot above the curb level; and

(3)

At least one-half the height of such private garage shall be below the mean grade of the front yard.

(j)

Outdoor lighting. Outdoor lighting installations shall not be permitted closer than two feet to an abutting property line and, where not specifically otherwise regulated, shall not exceed 15 feet in height. The lighting shall be adequately shielded or hooded so that no excessive glare or illumination is cast upon the adjoining properties, and the lighting shall not register more than one-half footcandle at the property line.

(k)

Lawn accessories. Paved terraces and purely decorative garden accessories, such as pools, fountains, statuary, sundials, flagpoles, etc., shall be permitted in setback areas, but not closer than two feet to an abutting property line other than a street line.

(l)

Retaining walls. Retaining walls may be permitted anywhere on the lot; provided, however, that no individual wall shall exceed six feet in height, and a terrace of at least three feet in width shall be provided between any series of such walls.

(m)

Children's play structures. For purposes of this section, children's play structures, including play houses, tree houses or fixed elevated play structures and climbing gyms, shall be considered accessory structures and shall comply with the requirements of this section, whether such play structures are placed on a foundation or not. Swing sets, slides and sandboxes are not considered children's play structures for purposes of this section. A building permit is not required for the construction of a play structure. Play structures shall not be used for storage or be constructed out of materials that would constitute a nuisance.

(n)

Terrace area restrictions. In addition to the definitions and restrictions contained in chapter 34, articles I and II, no person shall place any accessory structure or use, including landscaping ornaments, stones and basketball backboards/hoops, in the terrace area.
